Empathy Map Canvas – HouseRent (MERN Stack House Rental Platform)

Customer: House Seeker (Tenant)

Says	Thinks
"I need a genuine rental house."	"Is this property real and safe?"
"I want to book quickly."	"Can I trust this owner?"
"The rent should fit my budget."	"I hope the booking process is easy."

Does	Feels
Searches for rental properties.	Confused by fake or outdated listings.
Compares different houses.	Worried about scams.
Views property details and books a house.	Happy when finding a verified property quickly.

Customer: Property Owner

Says	Thinks
"I want to list my property."	"How can I reach more tenants?"

"I need to manage my bookings easily."	"My property should be visible to genuine users."
--	---

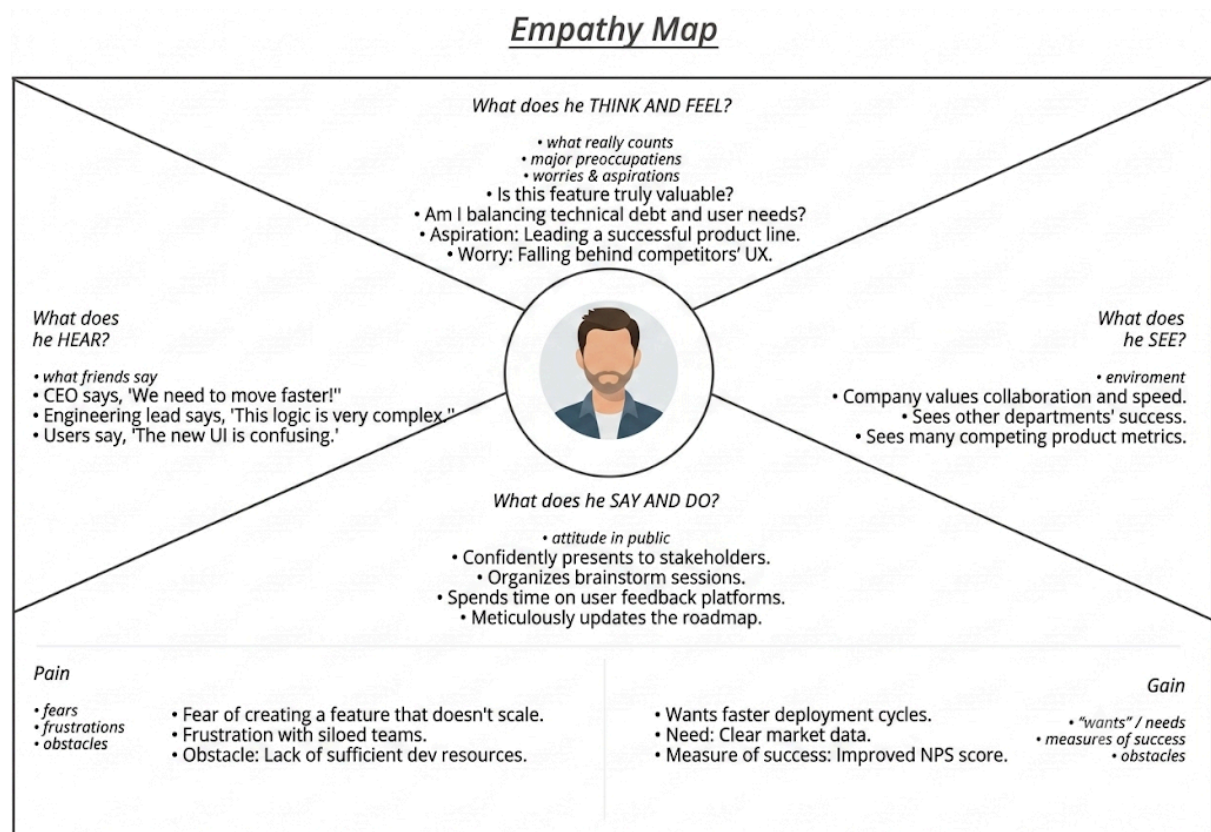

Does	Feels
Adds, edits, and deletes property listings.	Frustrated by manual management.
Uploads property images.	Confident when bookings are managed easily.
Checks booking requests.	Satisfied with an organized platform.

Customer: Administrator

Says	Thinks
"I need to verify property owners."	"The platform should remain secure."
"I want to monitor all activities."	"Fake listings must be prevented."

Does	Feels
Approves or rejects owner requests.	Responsible for platform security.
Manages users, properties, and bookings.	Confident when the system is well managed.
Monitors platform activities.	Satisfied when users have a safe experience.
